► Crest Builder Holdings Bhd

CREST Builder Holdings Bhd's net profit jumped 76.5% year-on-year (YoY) to RM6.9 million in the third quarter (3Q) ended Sept 30, 2017, while revenue surged 85% YoY to RM137.24 million, mainly due to higher revenue and profit before tax from the construction division, helped by higher progressive construction progress recognised from certain projects during the quarter. The group's property development division also recorded higher revenue from higher sales generated from completed projects, and a new development project launched since 3Q last year, its exchange filing noted.
